Notes from the Oswego directors:

The non-competitive nature of this event allows us to emphasize SHARING with others, as well as creating an environment centered on learning and improvement. As in past years, we ask that all participating bands remain in the stands during other performances. When your band is finished performing, proceed to your section of the bleachers and enjoy the remainder of the Panther Marching Band Review. In addition, we will be providing each band with a press-box DVD of your performance, as well as taped adjudicator comments.
